

Workshop Schedule

“Applications of Geospatial Technology in Paleochannel Studies: Potential and Future Trends”

Date: 11/10/2022

Time	Topic	Faculty
0935-1000	Inaugural Session	
1000-1100	Remote Sensing of Paleochannels: An Overview	Dr. R.P.Singh
1100-1200	Detection of buried paleochannels, reconstruction of drainage network to unravel the missing link with active tectonics	Dr. R. S. Chatterjee & Dr. Suresh Kanujia
1200-1300	Microwave Remote Sensing of Paleochannels	Dr. A.S. Rajawat
1430-1530	Integrated study of Saraswati Paleochannels using Space to Ground sensors	Dr. B.K. Bhadra
1530-1630	A Glimpse into discharge characteristics of lost Saraswati river	Dr. Gaurav Kumar
1630-1700	Panel Discussion	All Resource Persons
